---

## Objective

Enthusiastic and self-taught junior developer with hands-on experience in Python, JavaScript, FastAPI, and front-end tools like HTML, CSS, and Bootstrap. Passionate about building user-friendly applications and learning new technologies. Eager to contribute to a dynamic development team and grow professionally.

---

## Technical Skills

**Languages:** Python, JavaScript, HTML5, CSS3

**Frameworks & Tools:** FastAPI, Bootstrap, Git, GitHub

**Other Tools:** Vercel, Flutterwave API, REST APIs

**Soft Skills:** Problem-solving, Continuous learning, Team collaboration

---

## Projects

### [Ticket Purchase Web App](#)

*HTML, CSS, Bootstrap, JavaScript, FastAPI, Python, Flutterwave API, Git, GitHub, Vercel*

- Built a landing page that collects user data through a form.
- Integrated Flutterwave API for ticket purchases.
- Created a FastAPI backend for processing data and verifying payments.
- I deployed the frontend to Vercel and managed the code with GitHub.

### [Payment Verifier & Ticket Sender](#)

*Python, FastAPI, PIL*

- Built an API that verifies user payments and notifies both the user and the owner.
- Automated ticket generation and email delivery after successful payment.
- Used PIL to design branded dynamic tickets based on user input.

---

## Education

### **Self-Taught Developer**

- Ongoing learning via YouTube, online courses, and hands-on projects
  - Actively building real-world applications to apply skills
- 

## Version Control & Deployment

- Proficient with Git and GitHub for version control
  - Experience deploying projects on Vercel
- 

## Interests

Web development, Open Source, Automation, Tech communities, Startup products
